natural building
May 17th, 2020 - Cordwood construction is a term used for a natural building method in which cordwood or short lengths of pieces of debarked tree are laid up crosswise with masonry or cob mixtures to build a wall. The cordwood thus serves as infill for the walls, usually between posts in a timber frame structure. Cordwood masonry can be bined with other methods, e.g., rammed earth, cob, or light clay to...
